

PHP / Javascript programming exercise
version 1.0
created on 04-01-2018

In the previous exercises we covered (for) loops. In this exercise we use nested loops (one for loop inside another for loop). We use these nested loops to print data from a 2-dimensional array. To learn more about two dimensional arrays and nested loops please watch the following videos before working on this exercise:

two dimensional arrays: <https://www.youtube.com/watch?v=ApHNRy2NQgg>
nested loops: https://www.youtube.com/watch?v=r_8oqJeoIHU

Instruction

Use nested for loops to print

Sample array:

```
var a = [[4, 2, 0], [8, 11, 9], [7, 0, 7], [7, 4, 28], [3, 10, 26]];
```

Sample Output:

```
"row 0"  
"4"  
"2"  
"0"  
"row 1"  
"8"  
"11"  
"9"  
... etc.
```
